

# YOUTH 1ST COMMUNITY RESOURCES

From kindergarten to post-secondary education, children in the Normandy Schools Collaborative (NSC) deserve opportunities to access quality education that prepares them for post-secondary options and jobs.

Numerous barriers stand in the way of students in the NSC, and coalition members provide community resources that help children overcome those barriers and build successful lives. Our members connect students with meals, after-school programming, books, summer learning opportunities and more.

We can all support our children's bright futures, and within the NSC, families and children can engage with a variety of excellent community resources.

Youth 1st Coalition Members prepare children for lifelong success by offering new experiences, providing useful resources, creating first-hand learning opportunities and much more.

**HARRIS-STOWE**  
STATE UNIVERSITY  
COMMUNITY IMPACT NETWORK EDUCATION CENTER

The **Harris-Stowe State University Community Impact Network Education Center** provides programming for youth and young adults:
